

FACILITY: GRAMM TECHNOLOGY, INC., WDBG, VIRGINIA, UNITED STATES

Important Notice: You must visit the [FDA User Fee website](#) and pay for your facility prior to registering. If you have not yet received your Payment Confirmation Number (PCN), you will not be able to register your facility and will need to return and re-enter all information for the facility.

Who Must Pay: All establishments must pay the annual registration fee prior to registering or re-registering. If you have already registered for the current fiscal year, you do not need to provide your Payment Identification Number (PIN) and PCN again.

- Review the information that you provided for your facility.
- Make changes to your facility, listing or imported products information by clicking the Edit button at the top of the corresponding section.
- Make changes to Owner/Operator or Official Correspondent information by clicking Submit, then select "Return to Account Management" on the next page.

© FDA disclosure

You may search for a particular product by entering the foreign facility's listing number, if known, in the first box below and clicking "SUBMIT".

If you do not know the listing number (the owner of the listing number is the only party that can disclose this information, FDA does not give out this information) or wish to identify multiple products that you import from a manufacturer, you may search for that manufacturer's products by entering identifying information in any of the fields under the "Manufacturer Information" below, then clicking "SUBMIT".

You should enter as little information as is possible to identify the manufacturer as all criteria, not any criteria, that is entered must match our database. If you enter a registration number, do not enter any information in any of the other fields. As with the registration number, entering the facility name by itself is normally enough information to identify the manufacturer, therefore, unless there are several manufacturers with the same name, you should not enter any information in any of the other fields.

You can search by any of the fields below, but the more criteria you identify, the smaller the number of results you will get. The DRLM search mechanism uses an implied "And."

You can also search for manufacturers and products at <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfRL/rl.cfm>
